EARTH VESSELS

Earth Vessels are unique, lidded containers, handmade in Devon, which can be used to hold the ashes or keepsakes of departed loved ones.

They are made of hardened fabric and decorated with a variety of paints, wax, and leaves, mosses, other natural materials and coloured clays collected locally. The vessels can be a lasting memorial, though are biodegradable if placed in the ground.

Below is a sample of the range of Earth Vessels available. To view other vessels, Green Fuse has an Earth Vessels brochure or download direct from the website www.earthvessels.co.uk

Classic vessels (30 a b c)

These are available in 3 sizes

Small 400ml

Medium 750ml

Large 2.5 ltrs

(and can be made in larger size if desired)

Specialty Vessels (30 d e)

These are a range of 'one off' vessels made in a variety of sizes and shapes, mainly using natural materials. If the vessel chosen has been sold it is possible to make another similar vessel as a commission, depending on the availability of organic materials.

Commissioned vessels can be made specifically – and so choose colours, textures, shape, size and add poems, photographs, natural materials, a name or a dedication.

Because all Earth Vessels are individually handmade there may be slight variations from the photographed image as a result of the process.
